**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

**INVENTOR: Daniel F. Goldstein**

5 **TITLE: SAFE PATH NIGHT LIGHT**

**ABSTRACT**

A sensor causes a string of lights, for example, those sold under the trademark  
10 **LIGHT ROPE®** for assisting persons to walk in a darkened room to avoid accidents. The  
system incorporates a motion detector (with or without time delay to keep lights ON) and  
a string of lights, for example, those sold under the trademark **LIGHT ROPE®**. The lights  
are laid out along a path in the home.
